A Chapter of the American Association of Woodturners

June Meeting

We meet the 1st Thursday after the 1st Tuesday which is:

Thursday - June 3, 1999

**7:00 pm at Room 105,
Industrial Sciences Building -
Colorado State University,
Fort Collins, Colorado.**

**Committee/officers meeting
Avogadros, 605 S. Mason, 5:30 PM
June 3, prior to meeting.**

Agenda:

- * Announcements
- * Show and Tell (games / kitchen utensils)
- * Vic Wood Demonstration
- * Wood raffle - \$1.00 per ticket - (Bring Wood)

May Highlights

Thanks to Dale Kechter for starting the meeting since several officers were absent.

Best instrument of show and tell was probably David Gillespie's desridu, an Australian long tube. Certainly the most interesting.

Dick Moody won the \$15 drawing from Wood Emporium in Loveland, Colorado.

David Nittman's Basket Illusion was fascinating. A few tips included Pantona(tm) colored pens, motocross or weight-lifting

gloves for turning, use edge of stiff sandpaper for burning lines, woodburning tool for making basket lines and 'techno music' to work by. Huh? Classical guitar was also suggested as being very good to listen to while doing repetitive tasks on your turnings!
