

For sale is a used Delta 12" Wood Lathe Model 46-612 1HP 1PH 115V.

This is a variable speed lathe with a 1 HP motor. It is a heavy duty 16" over gap; 12" over bed by 36" bed. It has outboard turning capability. The lathe is in excellent condition and it comes with several accessories not shown in the picture including other tool rests. The protective glass screen comes with the lathe. It can be easily removed or installed as desired.

The reason I am selling is that I am moving to a different house and I have a Woodfast lathe that I am keeping.

Asking price: \$775 OBO
